ACTIVITY BOOKLET

WORLD OCEANS DAY
JUNE 8th

Pledge Chain

Magen Sier, Coordinator of Interpretive Programs at Riverbanks Zoo & Garden

Learning objective and notes	Materials and set up
Kids will create a bookmark with a pledge they will take to help the ocean. All ages.	Construction paper, crayons, hole punch, stapler, string pieces

Activity description

In this activity, the kids will create a bookmark with a pledge they will take to help the ocean. They get to take home a bookmark with their pledge, and also add a link to a Pledge Chain that all the kids will contribute to.

Each conservation action the kids can do at home (small things - take a lunchbox to school, turn off water when brushing your teeth, use re-useable bags, turn off a light switch, check a book out of the library about the ocean) has a two piece bookmark type construction paper of different colors.

- Allow the kids to color both bookmarks of the conservation action they pledge to do in the next week.
- Cut down the middle.
- One piece gets a hold punched in the top and three strings looped through to make a bookmark for them to take home with them.
- The second piece gets hung up on the pledge chain and continues to grow all day!
